

## Enroll in ULC's Edge 360 to Deepen Your Library's Impact

By enrolling in [Edge 360](#), your library system gains access to complex professional and organizational development, complete with highly-researched and tested **benchmarking and evaluation tools** and access to multiple **peer-learning cohorts** per year to advance learning.

### Edge 360 Tools

With an Edge subscription, members have access to the Edge 360 Tools, a collection benchmarking and self-evaluation resources on the provided topics. Participants are guided through these assessments and employ the results to deepen the library's impact, address any gaps, and set strategic goals.

### Peer-Learning Cohorts

In addition to utilizing the Edge 360 tools, subscribers get exclusive access to peer cohorts. Over six weeks, participants are guided through completing their self-evaluations while learning more about the topic and getting personalized support from an expert facilitator and their peers from around the country.

## ULC offers Edge 360 on the following topics:

### Data Fluency

The Edge 360 **Data Fluency cohort** teaches participants how to effectively gather and interpret the key data available through Edge's benchmarking tools to tell stories about their library's impact. Participants will be guided through planning a community needs assessment that can uncover strategic priorities for the organization and help libraries complete and interpret Edge Assessments.

### Summer STEM Learning

The Edge 360 **Summer STEM Learning cohort** will guide participants through the benchmarking assessment and focus on leveraging summer programs beyond reading to amplify opportunities for youth and address disparities in the community.

### Libraries as Entrepreneurship Hubs

The brand new Edge 360 **Libraries as Entrepreneurship Hubs cohort** and benchmarks are designed to assist libraries in clarifying and communicating their economic and community value in supporting and propelling small businesses.

### Data for Digital Equity

The Edge 360 **Data for Digital Equity** will help libraries access, understand and use key data sources to actively address digital equity gaps in their communities using peer cohort meetings and the Edge benchmarks.

### Creating a Culture of Belonging

Edge 360's **Creating a Culture of Belonging cohort** will assist library leaders on their journey to creating anti-racist library systems through benchmarking, assessment, and the development of strategic frameworks.
